

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

- ☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2026
- or
- ☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission File Number: 001-35435

Proto Labs, Inc.

(Exact name of registrant as specified in its charter)

Minnesota

(State or other jurisdiction of incorporation or organization)

41-1939628

(I.R.S. Employer Identification No.)

5540 Pioneer Creek Drive
Maple Plain, Minnesota

(Address of principal executive offices)

55359

(Zip Code)

(763) 479-3680

(Registrant’s telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, Par Value \$0.001 Per Share	PRLB	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒Yes ☐No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒Yes ☐No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

- Large accelerated filer☒
- Accelerated filer☐
- Non-accelerated filer☐
- Emerging growth company☐
- Smaller reporting company☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐Yes ☒No

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date: 23,921,897 shares of Common Stock, par value \$0.001 per share, were outstanding at July 28, 2026.

Notes to Consolidated Financial Statements

Note 1 – Basis of Presentation

The unaudited interim Consolidated Financial Statements of Proto Labs, Inc. (ProtoLabs, the Company, we, us or our) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, the accompanying financial statements reflect all adjustments necessary for a fair presentation of the Company's statements of financial position, results of operations and cash flows for the periods presented. Except as otherwise disclosed herein, these adjustments consist of normal, recurring items. Operating results for interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole.

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the related disclosures at the date of the financial statements and during the reporting period. Actual results could materially differ from these estimates. For further information, refer to the audited Consolidated Financial Statements and Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, as filed with the Securities and Exchange Commission (SEC) on February 20, 2026.

The accompanying Consolidated Balance Sheet as of December 31, 2025 was derived from the audited Consolidated Financial Statements but does not include all disclosures required by U.S. GAAP for a full set of financial statements. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's Consolidated Financial Statements and Notes included in the Company's Annual Report on Form 10-K filed on February 20, 2026 as referenced above.

Note 2 – Recent Accounting Pronouncements

The Company did not recently adopt any accounting pronouncements that had a material impact on the Company's Consolidated Financial Statements.

Apart from the items discussed in our Annual Report on Form 10-K for the year ended December 31, 2025, there are no other new accounting pronouncements that are expected to have a significant impact on the Company's consolidated financial statements or related disclosures.

Note 3 – Net Income per Common Share

Basic net income per share is computed based on the weighted-average number of common shares outstanding. Diluted net income per share is computed based on the weighted-average number of common shares outstanding, increased by the number of additional shares that would have been outstanding had potentially dilutive common shares been issued and reduced by the number of shares the Company could have repurchased from the proceeds from issuance of the potentially dilutive shares. Potentially dilutive shares of common stock include stock options and other stock-based awards granted under stock-based compensation plans and shares committed to be purchased under the employee stock purchase plan. Performance stock units are excluded from the calculation of dilutive potential common shares until the performance conditions have been satisfied. Anti-dilutive options were excluded from the calculation of diluted weighted average shares outstanding and were 99,200 and 459,386 for the three months ended June 30, 2026 and 2025, respectively, and 93,525 and 446,174 for the six months ended June 30, 2026 and 2025, respectively.

The table below sets forth the computation of basic and diluted net income per share:

(in thousands, except share and per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net income	\$ 9,152	\$ 4,427	\$ 17,263	\$ 8,026
Basic - weighted-average shares outstanding:	23,969,254	23,900,390	23,902,802	24,018,119
Effect of dilutive securities:				
Employee stock options and other	446,534	201,202	455,766	273,127
Diluted - weighted-average shares outstanding:	24,415,788	24,101,592	24,358,568	24,291,246
Net income per share:				
Basic	\$ 0.38	\$ 0.19	\$ 0.72	\$ 0.33
Diluted	\$ 0.37	\$ 0.18	\$ 0.71	\$ 0.33

Note 4 – Goodwill and Other Intangible Assets

There were no changes in the carrying amount of goodwill during the three and six months ended June 30, 2026.

Intangible assets other than goodwill at June 30, 2026 and December 31, 2025 were as follows:

(in thousands)	June 30, 2026			December 31, 2025			Useful Life (in years)	Weighted Average Useful Life Remaining (in years)
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net		
Intangible assets with finite lives:								
Non-compete agreement	\$ —	\$ —	\$ —	\$ 850	\$ (843)	\$ 7	2.0 - 5.0	0
Software technology	13,229	(11,177)	2,052	13,229	(10,493)	2,736	10.0	1.5
Software platform	26,769	(12,215)	14,554	27,110	(11,241)	15,869	12.0	6.6
Total intangible assets	\$ 39,998	\$ (23,392)	\$ 16,606	\$ 41,189	\$ (22,577)	\$ 18,612		

Intangible assets allocated to the Protolabs Network entities consisted of intangible assets of €11.6 million in Europe and \$16.6 million in the United States as of the date of the acquisition. The Euro-denominated intangible assets are translated at the end of each period using the current exchange rates resulting in a foreign currency translation adjustment that is recorded as a component of Other Comprehensive Income. Foreign currency unrealized losses related to intangible assets were \$0.9 million and \$0.5 million as of June 30, 2026 and December 31, 2025, respectively. Amortization expense for intangible assets was \$0.9 million for each of the three months ended June 30, 2026 and 2025, and \$1.8 million for the six months ended June 30, 2026 and 2025, respectively.

Estimated aggregated amortization expense based on the current carrying value of the amortizable intangible assets and current exchange rates is as follows:

(in thousands)	Estimated Amortization Expense
Remaining 2026	\$ 1,790
2027	3,578
2028	2,211
2029	2,211
2030	2,211
Thereafter	4,605
Total estimated amortization expense	<u>\$ 16,606</u>

Note 5 – Fair Value Measurements

Accounting Standards Codification, *Fair Value Measurement* (ASC 820), defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that requires classification based on observable and unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1—Quoted prices in active markets for identical assets or liabilities.

Level 2—Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are *not* active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's assets and liabilities that are required to be measured or disclosed at fair value on a recurring basis include cash and cash equivalents and marketable securities. The Company's cash consists of bank deposits and cash equivalents consist primarily of money market mutual funds. The Company determines the fair value of these investments using Level 1 inputs. The Company's marketable securities consist of short-term and long-term agency, municipal, corporate and other debt securities. Fair value for the corporate debt securities is primarily determined based on quoted market prices (Level 1). Fair values for the U.S. municipal securities, U.S. government agency securities, certificates of deposit and U.S. treasury securities are primarily determined using dealer quotes or quoted market prices for similar securities (Level 2).

The following table summarizes financial assets as of June 30, 2026 and December 31, 2025 measured at fair value on a recurring basis:

(in thousands)	June 30, 2026			December 31, 2025		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets:						
Cash	\$ 124,766	\$ —	\$ —	\$ 107,462	\$ —	\$ —
Money market mutual fund	3,152	—	—	3,364	—	—
Marketable securities	19,856	15,122	—	18,301	13,304	—
Total	<u>\$ 147,774</u>	<u>\$ 15,122</u>	<u>\$ —</u>	<u>\$ 129,127</u>	<u>\$ 13,304</u>	<u>\$ —</u>

Note 6 – Marketable Securities

The Company invests in short-term and long-term agency, municipal, corporate and other debt securities. The securities are categorized as available-for-sale and are recorded at fair value. The following table summarizes information regarding the Company’s short-term and long-term marketable securities as of June 30, 2026 and December 31, 2025:

(in thousands)	June 30, 2026			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
U.S. government agency securities	\$ 14,500	\$ —	\$ (58)	\$ 14,442
Corporate debt securities	11,968	—	(108)	11,860
U.S. municipal securities	7,679	5	(8)	7,676
U.S. treasury bonds	1,000	—	—	1,000
Total marketable securities	<u>\$ 35,147</u>	<u>\$ 5</u>	<u>\$ (174)</u>	<u>\$ 34,978</u>

(in thousands)	December 31, 2025			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
U.S. government agency securities	\$ 7,500	\$ 9	\$ (4)	\$ 7,505
Corporate debt securities	14,424	9	(7)	14,426
U.S. municipal securities	8,631	39	—	8,670
U.S. treasury bonds	1,000	4	—	1,004
Total marketable securities	<u>\$ 31,555</u>	<u>\$ 61</u>	<u>\$ (11)</u>	<u>\$ 31,605</u>

Fair values for the corporate debt securities are primarily determined based on quoted market prices (Level 1). Fair values for the U.S. municipal securities, U.S. government agency securities, certificates of deposit and U.S. treasury securities are primarily determined using dealer quotes or quoted market prices for similar securities (Level 2).

Classification of marketable securities as current or non-current is based upon the security’s maturity date as of the date of these financial statements.

The June 30, 2026 balance of available-for-sale debt securities by contractual maturity is shown in the following table at fair value. Actual maturities may differ from contractual maturities because the issuers of the securities may have the right to prepay obligations without prepayment penalties.

(in thousands)	June 30, 2026
Due in one year or less	\$ 14,858
Due after one year through five years	20,120
Total marketable securities	<u>\$ 34,978</u>

Note 7 – Inventory

Inventory consists primarily of raw materials, which are recorded at the lower of cost and net realizable value using the standard cost method, which approximates first-in, first-out (FIFO) cost. The Company periodically reviews its inventory for slow-moving, damaged and discontinued items and provides allowances to reduce such items identified to their recoverable amounts.

The Company's inventory consisted of the following as of the dates indicated:

(in thousands)	June 30, 2026	December 31, 2025
Total inventory	\$ 16,506	\$ 15,441
Allowance for obsolescence	(1,093)	(1,040)
Inventory, net of allowance	\$ 15,413	\$ 14,401

Note 8 – Stock-Based Compensation

On July 8, 2022, the board of directors approved the Proto Labs, Inc. 2022 Long-Term Incentive Plan, which was approved by the Company's shareholders at a Special Meeting of Shareholders on August 29, 2022, and subsequently amended and restated by the Company's shareholders at the Annual Meeting of Shareholders on May 23, 2024 (as amended and restated, and subsequently further amended, the 2022 Plan) to increase the number of shares available for issuance pursuant to awards under the 2022 Plan by an additional 430,000 shares, add a minimum vesting requirement, and extend the expiration date so that the term of the 2022 Plan runs for ten years from the date of the shareholder approval. On May 20, 2025 and May 19, 2026, the Company's shareholders approved amendments to the 2022 Plan to increase the number of shares available for issuance pursuant to awards under the 2022 Plan by an additional 296,000 shares and 395,000 shares, respectively. Under the 2022 Plan, the Company has the ability to grant stock options, stock appreciation rights (SARs), restricted stock, restricted stock units, other stock-based awards and cash incentive awards. Awards under the 2022 Plan have a maximum term of ten years from the date of grant. The compensation and talent committee may provide that the vesting or payment of any award will be subject to the attainment of specified performance measures in addition to the satisfaction of any continued service requirements and the compensation and talent committee will determine whether such measures have been achieved. The per-share exercise price of stock options and SARs granted under the 2022 Plan generally may not be less than the fair market value of a share of our common stock on the date of the grant.

The Company also has outstanding awards under the 2012 Long-Term Incentive Plan, as amended (the 2012 Plan), although the plan expired in February 2022 and no additional awards have since been or will be made under the 2012 Plan. The 2012 Plan provided the Company the ability to grant stock options, SARs, restricted stock, restricted stock units, other stock-based awards and cash incentive awards. Awards under the 2012 Plan that subsequently expired, were forfeited or cancelled, or settled in cash after August 29, 2022 became available for awards under the 2022 Plan.

In addition, the Company has outstanding awards that were not granted under the 2022 Plan or the 2012 Plan. These awards were granted as inducement awards to the Company's Chief Executive Officer in May 2025.

Employee Stock Purchase Plan

The Company's 2012 Employee Stock Purchase Plan (ESPP) allows eligible employees to purchase a variable number of shares of the Company's common stock each offering period at a discount through payroll deductions of up to 15 percent of their eligible compensation, subject to plan limitations. The ESPP provides for six-month offering periods with a single purchase period ending May 15 and November 15, respectively. At the end of each offering period, employees are able to purchase shares at 85 percent of the lower of the fair market value of the Company's common stock on the first trading day of the offering period or on the last trading day of the offering period.

Stock-Based Compensation Expense

Stock-based compensation expense was \$4.1 million and \$4.3 million for the three months ended June 30, 2026 and 2025, respectively, and \$7.3 million and \$8.3 million for the six months ended June 30, 2026 and 2025, respectively.

Stock Options

The following table summarizes stock option activity during the six months ended June 30, 2026:

	Stock Options	Weighted-Average Exercise Price
Options outstanding at December 31, 2025	360,214	\$ 52.94
Granted	73,560	65.22
Exercised	(100,267)	43.16
Forfeited	(15,877)	56.39
Expired	(21,718)	131.69
Options outstanding at June 30, 2026	295,912	\$ 53.54
Exercisable at June 30, 2026	114,024	\$ 61.44

The outstanding options generally have a term of ten years. For employees, options granted become exercisable ratably over the vesting period, which is generally a period of four years, beginning on the first anniversary of the grant date, subject to the employee's continuing service to the Company.

The weighted-average grant date fair value of options that were granted during the six months ended June 30, 2026 was \$35.95.

The following table provides the assumptions used in the Black-Scholes pricing model valuation of options during the six months ended June 30, 2026 and 2025:

	Six Months Ended June 30,	
	2026	2025
Risk-free interest rate	3.71% - 4.28%	4.13% - 4.17%
Expected life (years)	6.25	6.25
Expected volatility	52.59% - 52.69%	52.12% - 52.99%
Expected dividend yield	0%	0%

As of June 30, 2026, there was \$4.4 million of unrecognized compensation expense related to unvested stock options, which is expected to be recognized over a weighted-average period of 3.2 years.

Restricted Stock Units

Restricted stock unit (RSU) awards are share-settled awards and restrictions lapse ratably over the vesting period, which is generally a period of four years, beginning on the first anniversary of the grant date, subject to the employee's continuing service to the Company. For the board of directors, restrictions generally lapse in full on the first anniversary of the grant date.

The following table summarizes restricted stock units activity during the six months ended June 30, 2026:

	Restricted Stock Units	Weighted- Average Grant Date Fair Value Per Share
Restricted stock units at December 31, 2025	696,076	\$ 39.07
Granted	140,399	69.19
Restrictions lapsed	(183,382)	36.20
Forfeited	(57,677)	37.14
Restricted stock units at June 30, 2026	<u>595,416</u>	<u>\$ 47.31</u>

As of June 30, 2026, there was \$20.5 million of unrecognized compensation expense related to non-vested restricted stock units, which is expected to be recognized over a weighted-average period of 2.9 years.

Performance Stock Units

Performance stock units (PSUs) are expressed in terms of a target number of PSUs, with anywhere between 0 percent and 200 percent of that target number capable of being earned and vesting at the end of a three-year performance period depending on the Company's three-year cumulative total shareholder return performance relative to an index and the award recipient's continued employment. The Company's PSUs are based on market conditions and the related compensation cost is based on the fair value at grant date calculated using a Monte Carlo pricing model.

The following table summarizes performance stock units activity during the six months ended June 30, 2026:

	Performance Stock Units	Weighted- Average Grant Date Fair Value Per Share
Performance stock units at December 31, 2025	231,959	\$ 56.21
Granted	64,217	105.67
Restrictions lapsed	(121,334)	57.79
Performance change	60,667	57.79
Performance stock units at June 30, 2026	<u>235,509</u>	<u>\$ 69.29</u>

The following table provides the assumptions used in the Monte Carlo pricing model valuation of PSUs during the six months ended June 30, 2026 and 2025:

	Six Months Ended June 30,	
	2026	2025
Risk-free interest rate	3.48%	3.98% - 4.08%
Expected life (years)	2.85	2.61 - 2.85
Expected volatility	47.40%	52.40% - 53.20%
Expected dividend yield	0%	0%

As of June 30, 2026, there was \$10.8 million of unrecognized compensation expense related to non-vested performance stock units, which is expected to be recognized over a weighted-average period of 2.2 years.

Employee Stock Purchase Plan

The following table presents the assumptions used to estimate the fair value of the ESPP during the six months ended June 30, 2026 and 2025:

	Six Months Ended June 30,	
	2026	2025
Risk-free interest rate	3.67% - 3.78%	4.29%
Expected life (months)	6.00	6.00
Expected volatility	39.13% - 46.79%	65.60%
Expected dividend yield	0%	0%

Note 9 – Accumulated Other Comprehensive (Loss) Income

Other comprehensive (loss) income is comprised of foreign currency translation adjustments and net unrealized gains (losses) on investments in securities.

The following table presents the changes in accumulated other comprehensive (loss) income balances during the three and six months ended June 30, 2026 and 2025:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Balance at beginning of period	\$ (23,487)	\$ (26,891)	\$ (20,976)	\$ (27,984)
<i>Foreign currency translation adjustments</i>				
Other comprehensive (loss) income before reclassifications	289	2,300	(2,093)	3,303
Amounts reclassified from accumulated other comprehensive loss	—	—	—	—
Net current-period other comprehensive (loss) income	289	2,300	(2,093)	3,303
<i>Net unrealized (losses) gains on investments in securities</i>				
Other comprehensive (loss) income before reclassifications	(90)	28	(219)	118
Amounts reclassified from accumulated other comprehensive loss	—	—	—	—
Net current-period other comprehensive (loss) income	(90)	28	(219)	118
Balance at end of period	\$ (23,288)	\$ (24,563)	\$ (23,288)	\$ (24,563)

Note 10 – Income Taxes

The Company is subject to income tax in multiple jurisdictions and the use of estimates is required to determine the provision for income taxes. For the three months ended June 30, 2026 and 2025, the Company recorded an income tax provision of \$3.5 million and \$2.2 million, respectively. For the six months ended June 30, 2026 and 2025, the Company recorded an income tax provision of \$6.7 million and \$4.6 million, respectively. The income tax provision is based on the estimated annual effective tax rate for the year applied to pre-tax income. The effective income tax rate for the three months ended June 30, 2026 was 27.4 percent compared to 33.7 percent in the same period of the prior year. The effective tax rate decreased by 6.3 percent for the three months ended June 30, 2026 when compared to the same period in 2025, primarily due to an increase in tax benefits from the vesting of restricted stock and the exercise of stock options. The effective income tax rate for the six months ended June 30, 2026 was 27.8 percent compared to 36.6 percent in the same period of the prior year. The effective tax rate decreased by 8.8 percent for the six months ended June 30, 2026 when

compared to the same period in 2025, primarily due to an increase in tax benefits from the vesting of restricted stock and the exercise of stock options, as well as tax benefits recognized on losses incurred by a newly established entity in India.

The effective income tax rate for the three and six months ended June 30, 2026 differs from the U.S. federal statutory rate of 21.0 percent due to various factors, including operating in multiple state and foreign jurisdictions partially offset by tax credits for which the Company qualifies.

The Company had unrecognized tax benefits totaling \$3.2 million and \$3.1 million as of June 30, 2026 and December 31, 2025, respectively, that if recognized would result in a reduction of the Company's effective tax rate. The liabilities are classified as other long-term liabilities in the accompanying consolidated balance sheets. The Company recognizes interest and penalties related to income tax matters in income tax expense and reports the liability in current or long-term income taxes payable as appropriate.

Note 11 – Segment Reporting

The Company's reportable segments are based on the internal reporting used by the Company's CEO, who is the chief operating decision maker (CODM), to assess operating performance and make decisions about the allocation of resources. The CODM's primary profit measure for purposes of resource allocation and performance assessment is income (loss) from operations at the segment level. This measure is used to evaluate current-period performance, develop forecasts and budgets, and make decisions about capital and other resource allocations between segments. The Company's reportable segments are based upon geographic region, consisting of the United States and Europe. The Corporate Unallocated category includes non-reportable segments, as well as research and development and general and administrative costs that the Company does not allocate directly to its operating segments.

Revenue in the United States and Europe is derived primarily from Injection Molding, CNC Machining, 3D Printing and Sheet Metal product lines. Injection Molding revenue consists of sales of custom injection molds and injection-molded parts. CNC Machining revenue consists of sales of CNC-machined and lathe-turned customer parts. 3D Printing revenue consists of sales of 3D-printed parts. Sheet Metal revenue consists of sales of fabricated sheet metal parts.

Intercompany transactions primarily relate to intercontinental activity and have been eliminated and are excluded from the reported amounts. The difference between income (loss) from operations and pre-tax income relates to foreign currency-related gains and losses and interest income on cash balances and investments, which are not allocated to business segments.

The following table summarizes selected financial information by reportable segments:

Three Months Ended June 30, 2026				
(in thousands)				
	United States	Europe	Corporate Unallocated	Total
Revenue	\$ 122,759	\$ 26,582	\$ —	\$ 149,341

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2025.

Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of The Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical or current facts. In some cases, you can identify forward-looking statements by the following words: “may,” “will,” “could,” “would,” “should,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “potential,” “continue,” “ongoing” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results to be materially different from those expressed or implied in such statements. Certain of these risk factors and others are described in Item 1A. “Risk Factors” of this Quarterly Report on Form 10-Q, as well as our most recent Annual Report on Form 10-K as filed with the Securities and Exchange Commission (SEC). Other unknown or unpredictable factors also could have material adverse effects on our future results. We cannot guarantee future results, levels of activity, performance or achievements. You should not place undue reliance on these forward-looking statements. We expressly disclaim any intent or obligation to update any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

Overview

We are the world’s fastest manufacturing service enabling companies across every industry to streamline production of quality parts throughout the entire product life cycle. Our vision is accelerating innovation by revolutionizing manufacturing. Our mission is to shape the future by bringing customer ideas to life across every stage of their product cycle. We accomplish this by offering a variety of manufacturing capabilities fulfilled through a combination of owned manufacturing factories and a worldwide network of premium manufacturing partners. Our automated quoting and manufacturing systems are highly integrated with our manufacturing and fulfillment systems, which allow us to offer a vast array of manufacturing technologies in a variety of materials across a continuum of lead times and prices. Protolabs uses artificial intelligence (AI) in a number of different ways to improve our efficiency and the value we offer to customers, including: intelligent pricing and sourcing algorithms, automated quality inspection in injection molding, toolpath verification in CNC machining, software development, and various other AI end use cases. In the age of AI, we are well-positioned with our long history of leveraging technology to solve legacy manufacturing challenges and are deploying AI to power how we drive innovation to better serve our customers. AI is enabling us to move faster than ever before and continue to scale our business efficiently. Our technology-enabled digital engineering and manufacturing applications enable us to produce commercial-grade prototype and production plastic, metal, and liquid silicone rubber parts in as fast as one day.

Our customers conduct nearly all of their business with us over the Internet. We target our products to the millions of product developers and engineers who use three-dimensional computer-aided design (3D CAD) software to design products across a diverse range of end-markets, to the procurement and supply chain professionals seeking to easily and efficiently source custom parts on-demand, and to a wide variety of customers seeking to purchase custom parts. We believe our use of advanced technologies enables us to offer significant advantages at competitive prices to many customers and is the primary reason we have become a leading supplier of custom parts.

We have established our operations in the United States and Europe.

Our primary manufacturing product lines currently include Injection Molding, CNC Machining, 3D Printing and Sheet Metal. We continually seek to expand the range of sizes and geometric complexity of the parts we can make or source with these processes, to extend the variety of materials we are able to support, and to identify additional manufacturing processes to which we can apply our technology or incorporate into our manufacturing network in order to better serve the evolving preferences and needs of our customers.

Key Financial Measures and Trends

Revenue

Our operations are comprised of two geographic operating segments in the United States and Europe.

Revenue is derived from the sale of parts fulfilled through our owned manufacturing factories and worldwide network of premium manufacturing partners. Our product lines consist of Injection Molding, CNC Machining, 3D Printing and Sheet Metal. Injection Molding revenue consists of sales of custom injection molds and injection-molded parts. CNC Machining revenue consists of sales of CNC-machined custom parts. 3D Printing revenue consists of sales of 3D-printed parts. Sheet Metal revenue consists of sales of fabricated sheet metal custom parts.

Protolabs' long-term strategy is to serve customers across the entire lifecycle of a part—from prototype through production. To support this long-term strategy, we have aligned the organization around four strategic pillars:

- *Elevate Customer Experience* – remove friction across the customer journey to deliver a best-in-class experience and increase revenue per customer. Enable employees to serve customers more efficiently, driving faster growth.
- *Accelerate Innovation* – reaccelerate innovation across core manufacturing services to drive outsized growth and an accelerated pace of new releases. Leverage differentiated IP and deep manufacturing & engineering talent.
- *Expand Production* – take a deliberate, customer-led approach—prioritizing the right customers, applications, and capabilities. Begin with most strategic customers and scale over time.
- *Drive Operational Efficiency* – expand our factory and Protolabs network gross margins and capture operating expense leverage via efficiencies and productivity. Reallocate resources and funds to invest in the highest-priority growth initiatives.

The following table summarizes our unique customer contacts and revenue per customer contact:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Revenue (in thousands)	\$ 149,341	\$ 135,063	\$ 288,677	\$ 261,268
Customer contacts	20,630	21,775	31,069	33,136
Revenue per customer contact ¹	\$7,239	\$6,203	\$9,291	\$7,885

¹ Revenue per customer contact is calculated using the revenue recognized during the respective period divided by the actual number of customer contacts served during the same period. Customer contacts are product developers, engineers, procurement and supply chain professionals and other individuals who place an order, and that order is shipped and invoiced during the period. The Company believes revenue per customer contact is useful to investors in evaluating the underlying business trends and ongoing operating performance of the Company.

Cost of Revenue, Gross Profit and Gross Margin

Cost of revenue consists primarily of raw materials, equipment depreciation, employee compensation (including benefits and stock-based compensation), facilities costs, overhead allocations associated with the manufacturing process for molds and custom parts, and costs to procure parts through our network of premium manufacturing partners. We expect our personnel-related costs to increase in order to retain and attract top talent and remain competitive in the market. Overall, we expect cost of revenue to increase in absolute dollars as our business grows.

We define gross profit as our revenue less our cost of revenue, and gross margin as gross profit expressed as a percentage of revenue. Our gross profit and gross margin are affected by many factors, including the mix of revenue produced in our internal manufacturing operations and outsourced to our external manufacturing partners, pricing, sales volume, manufacturing costs, costs associated with increasing production capacity, the mix between domestic and foreign revenue sources, the mix of revenue by product line, and foreign currency exchange rates.

Operating Expenses

Operating expenses consist of marketing and sales, research and development and general and administrative expenses. Personnel-related costs are the most significant component in each of these categories.

Our business strategy is to continue to be a leading online and technology-enabled manufacturer of quick-turn, on-demand injection-molded, CNC-machined, 3D-printed and fabricated sheet metal custom parts for prototyping and low-volume production. In order to achieve our goals, we anticipate continued substantial investments in technology and personnel, resulting in increased operating expenses in the future.

Marketing and sales. Marketing and sales expense consists primarily of employee compensation, benefits, commissions, stock-based compensation, marketing demand generation costs such as electronic, print and pay-per-click advertising, trade shows and other related overhead. We expect sales and marketing expense to increase in the future as we increase the number of marketing and sales professionals and marketing demand generation costs targeted to increase our customer base and grow revenue.

Research and development. Research and development expense consists primarily of personnel and outside service costs related to the development of new processes and product lines, enhancement of existing product lines, development of software for internal use, maintenance of internally developed software, quality assurance and testing. Costs for internal use software are evaluated by project and capitalized where appropriate under ASC 350-40, *Intangibles — Goodwill and Other; Internal-Use Software*. We expect research and development expense to increase in the future as we seek to enhance our e-commerce interface technology, internal software and supporting business systems, and continue to expand our product lines.

General and administrative. General and administrative expense consists primarily of employee compensation, benefits, stock-based compensation, professional service fees related to accounting, tax and legal, and other related overhead. We expect general and administrative expense to increase in the future as we continue to grow and expand as a global organization.

Restructuring and transformation costs. Restructuring and transformation costs consist of expenses related to actions taken to improve operational efficiency and streamline the organization. Such costs include employee severance and related benefits, professional fees, and other charges in connection with organizational realignments. Cost savings generated from these initiatives are being redeployed primarily into technology investments, including enhancements to core systems, automation, and digital capabilities, to support growth in our core business and further drive scale and efficiency.

Costs related to disposal and exit activities. Costs related to disposal and exit activities are driven by our decision to close certain manufacturing facilities in Germany. The expenses consist primarily of operating expenses, including write-down of property and equipment and facility-related charges, and employee severance. Benefits may result from adjustments to initial estimates regarding the nature and timing of disposal and exit activities.

Other Income, net

Other income, net primarily consists of foreign currency-related gains and losses and interest income on cash balances and investments. Our foreign currency-related gains and losses will vary depending upon movements in underlying foreign currency exchange rates. Our interest income will vary each reporting period depending on our average cash balances during the period, composition of our marketable security portfolio and the current level of interest rates.

Provision for Income Taxes

Provision for income taxes is comprised of federal, state, local and foreign taxes based on pre-tax income. Overall, our effective tax rate for 2026 and beyond may differ from historical effective tax rates due to increases in losses in foreign operations that are not eligible for tax benefits on account of valuation allowances, as well as any future tax law changes that may impact our effective tax rate.

Results of Operations

The following table summarizes our results of operations and the related changes for the periods indicated. The results below are not necessarily indicative of results for future periods.

(dollars in thousands)	Three Months Ended June 30,				Change		Six Months Ended June 30,				Change

Comparison of Three Months Ended June 30, 2026 and 2025

Revenue

Revenue by reportable segment and the related changes for the three months ended June 30, 2026 and 2025 were as follows:

(dollars in thousands)	Three Months Ended June 30,				Change	
	2026		2025			
	\$	% of Total Revenue	\$	% of Total Revenue	\$	%
Revenue:						
United States	\$ 122,759	82.2 %	\$ 110,712	82.0 %	\$ 12,047	10.9 %
Europe	26,582	17.8	24,351	18.0	2,231	9.2
Total revenue	\$ 149,341	100.0%	\$ 135,063	100.0%	\$ 14,278	10.6%

Our revenue increased \$14.3 million, or 10.6%, for the three months ended June 30, 2026 compared to the same period in 2025. The growth in revenue was primarily driven by an increase in CNC and Injection Molding revenue in the United States from key growth industries, primarily aerospace and defense, and market dynamics that have driven increases in price. By reportable segment, revenue in the United States increased \$12.0 million, or 10.9%, for the three months ended June 30, 2026 compared to the same period in 2025. Revenue in Europe increased \$2.2 million, or 9.2%, for the three months ended June 30, 2026 compared to the same period in 2025. International revenue was favorably impacted by \$0.4 million during the three months ended June 30, 2026 compared to the same period in 2025 as a result of foreign currency movements, primarily due to the strengthening of the Euro relative to the United States Dollar.

During the three months ended June 30, 2026, we served 20,630 unique customer contacts, which is a decrease of 5.3% from the same period in 2025. During the three months ended June 30, 2026, our customer contacts served decreased while our revenue grew. This was primarily due to our mix of customers served in the quarter as compared to the same period in 2025 and our focus on larger, more strategic customers as we strive to be their supplier of choice by serving their custom parts needs through our comprehensive offer. Our revenue per customer contact grew 16.7% for the three months ended June 30, 2026 compared to the same period in 2025.

Revenue by product line and the related changes for the three months ended June 30, 2026 and 2025 were as follows:

(dollars in thousands)	Three Months Ended June 30,				Change	
	2026		2025			
	\$	% of Total Revenue	\$	% of Total Revenue	\$	%
Revenue:						
Injection Molding	\$ 53,625	35.9 %	\$ 47,415	35.1 %	\$ 6,210	13.1 %
CNC Machining	70,360	47.1	61,945	45.9	8,415	13.6
3D Printing	20,667	13.8	21,215	15.7	(548)	(2.6)
Sheet Metal	4,462	3.0	4,303	3.2	159	3.7
Other Revenue	227	0.2	185	0.1	42	22.7
Total revenue	\$ 149,341	100.0 %	\$ 135,063	100.0 %	\$ 14,278	10.6 %

By product line, our revenue increase was driven by a 13.6% increase in CNC Machining revenue, a 13.1% increase in Injection Molding revenue, and a 3.7% increase in Sheet Metal revenue, partially offset by a 2.6% decrease in 3D Printing revenue for the three months ended June 30, 2026 compared to the same period in 2025.

Cost of Revenue, Gross Profit and Gross Margin

Cost of Revenue. Cost of revenue increased \$4.7 million, or 6.3%, for the three months ended June 30, 2026 compared to the same period in 2025, while revenue increased 10.6% for the three months ended June 30, 2026 compared to the same period in 2025. The increase in the cost of revenue of \$4.7 million was primarily driven by higher revenue volumes resulting in increases of \$3.2 million in personnel and related costs, primarily due to increases in head count and overtime costs and contract labor to meet increased order volume, \$1.2 million in raw material and production costs, and \$0.3 million of equipment and facility related costs during the three months ended June 30, 2026 compared to the same period in 2025.

Gross Profit and Gross Margin. Gross profit increased \$9.6 million, or 16.0%, for the three months ended June 30, 2026 compared to the same period in 2025. Gross margin increased to 46.4% in the three months ended June 30, 2026 from 44.3% in the same period in 2025.

Operating Expenses, Other Income, net and Provision for Income Taxes

Marketing and Sales. Our marketing and sales expenses increased \$1.0 million during the three months ended June 30, 2026 compared to the same period in 2025 primarily due to increases in marketing program costs of \$0.6 million and \$0.3 million of personnel and related costs.

Research and Development. Our research and development expenses decreased \$0.4 million, or 3.4%, during the three months ended June 30, 2026 compared to the same period in 2025 primarily due to decreases in personnel and related costs of \$0.9 million, partially offset by increases of \$0.3 million in professional services and \$0.2 million in operating costs.

General and Administrative. Our general and administrative expenses increased \$0.9 million, or 4.8%, during the three months ended June 30, 2026 compared to the same period in 2025 primarily due to increases in professional services of \$0.7 million and \$0.5 million of administrative costs, partially offset by decreases of \$0.2 million in stock-based compensation and \$0.1 million of personnel and related costs.

Restructuring and transformation costs. Restructuring and transformation costs include expenses related to actions taken to improve operational efficiency and streamline the organization and resulted in \$0.9 million in operating expenses during 2026 primarily related to professional services and severance and related benefit costs. We had no restructuring and transformation costs for the same period in 2025.

Costs related to exit and disposal. Costs related to disposal and exit activities are primarily driven by our decision to close certain manufacturing facilities in Germany. Our costs related to exit and disposal increased \$0.8 million primarily related to the write-down of the abandoned facility right-of-use asset of \$0.9 million during the three months ended June 30, 2026.

Other income, net. We recognized other income, net of \$1.2 million for the three months ended June 30, 2026, a decrease of \$0.5 million compared to the same period in 2025. Other income, net for the current quarter primarily consisted of \$1.3 million in interest income on investments, and \$0.1 million of other income partially offset by \$0.2 million of foreign currency losses. Other income, net for the three months ended June 30, 2025 primarily consisted of \$1.1 million in interest income on investments, \$0.5 million of foreign currency gains and \$0.1 million of other income.

Provision for Income Taxes. Our effective tax rate of 27.4% for the three months ended June 30, 2026 decreased 6.3% compared to 33.7% for the same period in 2025. The decrease in the effective tax rate was primarily due to an increase in tax benefits from the vesting of restricted stock and the exercise of stock options. Our income tax provision of \$3.5 million for the three months ended June 30, 2026 increased \$1.2 million as compared to our income tax provision of \$2.2 million for the same period in 2025.

Comparison of Six Months Ended June 30, 2026 and 2025

Revenue

Revenue by reportable segment and the related changes for the six months ended June 30, 2026 and 2025 were as follows:

	Six Months Ended June 30,					
	2026		2025		Change	
(dollars in thousands)	\$	% of Total Revenue	\$	% of Total Revenue	\$	%
Revenue:						
United States	\$ 234,886	81.4 %	\$ 210,979	80.8 %	\$ 23,907	11.3 %
Europe	53,791	18.6 %	50,289	19.2 %	3,502	7.0
Total revenue	\$ 288,677	100.0%	\$ 261,268	100.0%	\$ 27,409	10.5%

Our revenue increased \$27.4 million, or 10.5%, for the six months ended June 30, 2026 compared to the same period in 2025. By reportable segment, revenue in the United States increased \$23.9 million, or 11.3%, for the six months ended June 30, 2026 compared to the same period in 2025. Revenue in Europe increased \$3.5 million, or 7.0%, for the six months ended June 30, 2026 compared to the same period in 2025. International revenues were favorably impacted by \$2.6 million during the six months ended June 30, 2026 compared to the same period in 2025 as a result of foreign currency movements, primarily due to the strengthening of the British Pound and Euro relative to the United States Dollar.

During the six months ended June 30, 2026, we served 31,069 unique customer contacts, a decrease of 6.2% from the same period in 2025. This was primarily due to our mix of customers served in the quarter as compared to the same period in 2025 and our focus on larger, more strategic customers as we strive to be their supplier of choice by serving their custom parts needs through our comprehensive offer. Our revenue per customer contact grew 17.8% for the six months ended June 30, 2026 compared to the same period in 2025.

Revenue by product line and the related changes for the six months ended June 30, 2026 and 2025 were as follows:

(dollars in thousands)	Six Months Ended June 30,				Change				
	2026		2025						
	\$	% of Total Revenue	\$	% of Total Revenue	\$	%			
Revenue:									
Injection Molding	\$	104,693	36.3 %	\$	96,138	36.8 %	\$	8,555	8.9 %
CNC Machining		133,605	46.3		114,788	43.9		18,817	16.4
3D Printing		41,132	14.2		41,409	15.8		(277)	(0.7)
Sheet Metal		8,813	3.1		8,514	3.3		299	3.5
Other Revenue		434	0.1		419	0.2		15	3.6
Total revenue	\$	288,677	100.0 %	\$	261,268	100.0 %	\$	27,409	10.5 %

By product line, our revenue increase was driven by a 16.4% increase in CNC Machining revenue, an 8.9% increase in Injection Molding revenue and a 3.5% increase in Sheet Metal revenue, partially offset by a 0.7% decrease in 3D Printing revenue in each case for the six months ended June 30, 2026 compared to the same period in 2025.

Cost of Revenue, Gross Profit and Gross Margin

Cost of Revenue. Cost of revenue increased \$9.9 million, or 6.8%, for the six months ended June 30, 2026 compared to the same period in 2025, which was lower than the rate of revenue increase of 10.5% for the six months ended June 30, 2026 compared to the same period in 2025. The increase in cost of revenue of \$9.9 million was primarily driven by higher revenue volumes resulting in increases of \$5.1 million in raw material and production costs, \$5.0 million in personnel and related costs, primarily due to increases in head count and overtime costs and contract labor to meet increased order

volume, partially offset by decreases of \$0.2 million in equipment and facility related costs during the six months ended June 30, 2026 compared to the same period in 2025.

Gross Profit and Gross Margin. Gross profit increased from \$115.5 million in the six months ended June 30, 2025 to \$132.9 million in the six months ended June 30, 2026. Gross margin increased from 44.2% in the six months ended June 30, 2025 to 46.0% in the six months ended June 30, 2026.

Operating Expenses, Other Income, net and Provision for Income Taxes

Marketing and Sales. Marketing and sales expenses increased \$2.0 million, or 4.1%, during the six months ended June 30, 2026 compared to the same period in 2025. The increase was driven by increases in personnel and related costs of \$1.1 million and marketing program cost increases of \$0.9 million during the six months ended June 30, 2026 when compared to the same period in 2025.

Research and Development. Our research and development expenses decreased \$0.5 million, or 2.1%, during the six months ended June 30, 2026 compared to the same period in 2025 primarily due to personnel and related cost decreases of \$1.2 million, which were partially offset by increases in other operating costs of \$0.5 million and professional services of \$0.2 million.

General and Administrative. Our general and administrative expenses increased \$1.1 million, or 3.0%, during the six months ended June 30, 2026 compared to the same period in 2025 primarily due to increases in \$1.1 million of professional services, \$0.4 million of personnel and related costs, administrative costs of \$0.2 million, partially offset by decreases of \$0.6 million in stock-based compensation.

Restructuring and transformation costs. Restructuring and transformation costs include expenses related to actions taken to improve operational efficiency and streamline the organization and resulted in \$2.3 million in operating expenses during 2026 primarily related to severance and related benefit costs, and professional services. We had no restructuring and transformation costs for the same period in 2025.

Costs related to exit and disposal. Costs related to disposal and exit activities are primarily driven by our decision to close certain manufacturing facilities in Germany. Our costs related to exit and disposal activities increased \$0.8 million during the six months ended June 30, 2026 compared to the same period in 2025 primarily due to the write-down of the abandoned facility right-of-use asset of \$0.9 million. Costs related to exit and disposal activities for the six months ended June 30, 2025 consisted of \$0.2 million expense related to the write-down of fixed assets and \$0.1 million in personnel and related cost benefits.

Other income, net. We recognized other income, net of \$2.7 million for the six months ended June 30, 2026, a decrease of \$0.4 million compared to other income, net of \$3.2 million for the same period in 2025. Other income, net for the six months ended June 30, 2026 primarily consisted of \$2.5 million in interest income on investments, and \$0.5 million of other income partially offset by \$0.2 million of foreign currency losses. Other income, net for the six months ended June 30, 2025 primarily consisted of \$2.2 million in interest income on investments, \$0.5 million of foreign currency gains and \$0.4 million of other income.

Provision for Income Taxes. Our effective tax rate of 27.8% for the six months ended June 30, 2026 decreased 8.8% compared to 36.6% for the same period in 2025. The decrease in the effective tax rate was primarily due to an increase in tax benefits from the vesting of restricted stock and the exercise of stock options, as well as tax benefits recognized on losses incurred by a newly established entity in India. Our income tax provision of \$6.7 million for the six months ended June 30, 2026 increased \$2.0 million compared to our income tax provision of \$4.6 million for the six months ended June 30, 2025.

Liquidity and Capital Resources

Cash Flows

The following table summarizes our cash flows during the six months ended June 30, 2026 and 2025:

(dollars in thousands)	Six Months Ended June 30,	
	2026	2025
Net cash provided by operating activities	\$ 32,978	\$ 28,963
Net cash used in investing activities	(11,971)	(3,552)
Net cash used in financing activities	(3,882)	(25,169)
Effect of exchange rate changes on cash and cash equivalents	(33)	1,069
Net increase in cash and cash equivalents	\$ 17,092	\$ 1,311

Sources of Liquidity

Historically, we have primarily financed our operations and capital expenditures through cash flow from operations. We had cash and cash equivalents of \$127.9 million as of June 30, 2026, an increase of \$17.1 million from December 31, 2025. The increase in our cash was primarily due to cash provided by operating activities of \$33.0 million and \$7.3 million of proceeds from issuance of common stock related to equity plans, which were partially offset by net purchases of property, equipment and other capital assets of \$8.5 million, \$6.0 million in purchases of shares withheld for tax obligations associated with equity transactions, \$5.0 million in repurchases of common stock and net purchases of marketable securities of \$3.5 million.

We believe that our existing cash and cash equivalents together with cash generated from operations will be sufficient to meet our working capital and capital expenditure requirements for at least the next 12 months.

Cash Flows from Operating Activities

Cash flows from operating activities were \$33.0 million during the six months ended June 30, 2026 and primarily consisted of net income of \$17.3 million, adjusted for certain non-cash items, including depreciation and amortization of \$16.2 million, stock-based compensation expense of \$7.3 million, increases in deferred taxes of \$4.1 million and impairment on a leased facility of \$0.9 million, which were partially offset by changes in operating assets and liabilities and other items totaling \$12.8 million. Cash flows from operating activities were \$29.0 million during the six months ended June 30, 2025 and primarily consisted of net income of \$8.0 million, adjusted for certain non-cash items, including depreciation and amortization of \$17.3 million, stock-based compensation expense of \$8.3 million and an impairment on a leased facility and fixed asset of \$0.4 million, which were partially offset by deferred taxes of \$4.0 million and changes in operating assets and liabilities and other items totaling \$1.0 million.

Cash flows from operating activities increased \$4.0 million during the six months ended June 30, 2026 compared to the same period in 2025, primarily due to increases in net income of \$9.2 million, increases in deferred taxes of \$8.0 million and an increase of \$0.5 million in leased facility impairment charges, which were partially offset by changes in operating assets and liabilities and other items totaling \$11.7 million, decreases in depreciation and amortization of \$1.1 million and decreases in stock-based compensation of \$0.9 million.

Cash Flows from Investing Activities

Cash used in investing activities was \$12.0 million during the six months ended June 30, 2026, consisting of \$8.5 million for net purchases of property, equipment and other capital assets and \$3.5 million of net purchases of marketable securities.

Cash used in investing activities was \$3.6 million during the six months ended June 30, 2025, consisting of \$2.7 million for net purchases of property, equipment and other capital assets and \$0.8 million of purchases of marketable securities, net of proceeds from call redemptions and maturities.

Cash Flows from Financing Activities

Cash used in financing activities was \$3.9 million during the six months ended June 30, 2026, consisting of \$6.0 million in purchases of shares withheld for tax obligations associated with equity transactions, \$5.0 million in repurchases of common stock and \$0.2 million for repayments of finance lease obligations, partially offset by \$7.3 million in proceeds related to equity plans.

Cash used in financing activities was \$25.2 million during the six months ended June 30, 2025, consisting of \$24.0 million in repurchases of common stock, \$3.1 million in purchases of shares withheld for tax obligations associated with equity transactions and \$0.2 million for repayments of finance lease obligations, which were partially offset by \$2.1 million in proceeds related to equity plans.

Critical Accounting Estimates

We have adopted various accounting policies to prepare the Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of these financial statements requires us to make estimates, judgments and assumptions. Our significant accounting policies and estimates are disclosed in Note 2 to the Consolidated Financial Statements included Part II, Item 8 in our Annual Report on Form 10-K for the year ended December 31, 2025. There were no material changes to our critical accounting policies and estimates during the six months ended June 30, 2026.

Recent Accounting Pronouncements

For information on recent accounting pronouncements, see Note 2 to the Consolidated Financial Statements appearing in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Risk

As a result of our foreign operations, we have revenue, expenses, assets and liabilities that are denominated in foreign currencies. We generate revenue and incur production and sourcing costs and operating expenses in British Pounds and Euros.

Our operating results and cash flows are adversely impacted when the United States Dollar appreciates relative to foreign currencies. Additionally, our operating results and cash flows are adversely impacted when the British Pound appreciates relative to the Euro. As we expand internationally, our results of operations and cash flows will become increasingly subject to changes in foreign currency exchange rates.

We have not used forward contracts or currency borrowings to hedge our exposure to foreign currency risk. Foreign currency risk can be assessed by estimating the change in results of operations or financial position resulting from a hypothetical 10% adverse change in foreign exchange rates. We believe such a change would generally not have a material impact on our financial position, but could have a material impact on our results of operations. We recognized foreign currency losses of \$0.2 million and foreign currency gains of \$0.5 million for the three months ended June 30, 2026 and 2025, respectively. We recognized foreign currency losses of \$0.2 million and foreign currency gains of \$0.5 million for the six months ended June 30, 2026 and 2025, respectively. The changes in foreign exchange rates had a favorable impact on consolidated revenue of \$0.4 million for the three months ended June 30, 2026 and a favorable impact on consolidated revenue of \$2.6 million for the six months ended June 30, 2026 compared to the same period in 2025.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures are effective and provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported accurately and within the time frames specified in the

SEC’s rules and forms and accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are subject to various legal proceedings and claims that arise in the ordinary course of our business activities. Although the results of litigation and claims cannot be predicted with certainty, as of the date of these financial statements, we do not believe we are party to any litigation the outcome of which, if determined adversely to us, would individually or in the aggregate be reasonably expected to have a material adverse effect on our business.

Item 1A. Risk Factors

Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2025 includes a discussion of our risk factors. There have been no material changes from the risk factors described in our Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 4, 2025, our board of directors authorized a share repurchase program (the February 2025 Program). The February 2025 Program is open-ended and authorizes repurchases of shares of our common stock from time to time on the open market or in privately negotiated purchases, with a total stock repurchase authorized of up to \$100 million. We have \$52.0 million remaining under this authorization. The February 2025 Program does not obligate us to acquire any particular amount of shares of our common stock and remains in effect until the total authorized amount is expended or until further action by our board of directors. The actual timing, manner, number and value of shares repurchased under the February 2025 Program will be determined by our management in its discretion and will depend on several factors, including the market price of the Company's common stock, general market and economic conditions, applicable requirements, and other considerations.

During the three months ended June 30, 2026, we repurchased 68,553 shares of our common stock at a total purchase price of \$5.0 million under this program. Common stock repurchase activity through June 30, 2026 was as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in thousands)
April 1, 2026 through April 30, 2026	—	\$ —	—	\$ 57,066
May 1, 2026 through May 31, 2026	43,937	\$ 72.36	43,937	\$ 53,887
June 1, 2026 through June 30, 2026	24,616	\$ 75.35	24,616	\$ 52,032
	68,553	\$ 73.44	68,553	\$ 52,032

Item 3. Defaults Upon Senior Securities

No matters to disclose.

Item 4. Mine Safety Disclosures

No matters to disclose.

Item 5. Other Information

On June 6, 2026, Daniel Schumacher, Chief Financial Officer of the Company, entered into a 10b5-1 sales plan intended to satisfy the affirmative defense of Rule 10b5-1(c) under the Exchange Act. This 10b5-1 sales plan provides for the sale of up to 10,000 shares of the Company's common stock related to vested restricted stock units granted to Mr. Schumacher. This 10b5-1 sales plan will become effective on September 4, 2026 and expire on June 3, 2027, or upon the earlier completion of all authorized transactions under the plan.

During the three months ended June 30, 2026, no other directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted, modified or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) of the Exchange Act or any non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K).

Item 6. Exhibits

The following documents are filed or furnished, as applicable, as part of this Quarterly Report on Form 10-Q:

Exhibit Number	Description of Exhibit
3.1	Third Amended and Restated Articles of Incorporation of Proto Labs, Inc. (incorporated by reference to Exhibit 3.2 to the Company's Registration Statement on Form S-1/A, filed on February 13, 2012).

THE SARBANES-OXLEY ACT OF 2002**

I, Suresh Krishna, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Proto Labs, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
